Xerox

Xerox Partner Print Services
Take control of your print and copy environment

Xerox Partner Print Services can reduce your print and copy costs by as much as 30% while improving your company's document production capabilities. Using proven tools developed by Xerox, our accredited print services providers will streamline and cost-effectively manage your Xerox and non-Xerox output devices.*

You're in control
By moving output device management to a single, central process, it's easy to expand and add capabilities as your business needs change. Pick only the services you need now and add more as your business grows.

Why outsource print and copy services?

Most organizations don't understand the true costs of running their print, copy, scan and fax assets, yet may spend 3% of revenues on these resources. By outsourcing copy and print services, you will reap these benefits:

- **Reduce print and copy costs.** Moving from in-house print and copy management to a managed print solution can trim these costs by up to 30%.

- **Keep the devices you have today as needed,** helping minimize capital expenditure. Optimize your existing print environment over time to reduce the impact of change on your organization.

- **Increase productivity.** Our accredited print services providers will ensure that your devices stay up to date and that your employees have the new features they need to stay productive and competitive.

- **Save resources.** More efficient management of your output device fleet can reduce energy consumption, reduce the cost of consumables such as ink or toner, and cut down on waste.

- **Refocus IT on more critical business tasks.** IT support staff typically spend significant time in installing, supporting and maintaining output devices.

Xerox Partner Print Services

Improve cost management

Xerox Partner Print Services can help you streamline your company's print operations and reduce print and copy expenditures.

- **A single, predictable monthly bill** for all your output device fleet makes it easier to manage costs and assist in budget planning. Convert all or part of your output device fleet, be it leased or owned, to one single lease through Xerox leasing.

- **Supports real-world business environments.** Unlike most single-vendor print management solutions, we support both Xerox and non-Xerox equipment.

- **Single point of contact** for complete document production management increases efficiency and visibility.

- **Enhanced employee productivity,** thanks to increased uptime and the elimination of time-consuming processes such as meter reads and supplies ordering. Employees can concentrate on their work instead of managing the printer or copier.

Service you can trust through expert Xerox-certified partners

Xerox Partner Print Services are delivered by Xerox-trained and certified experts who will help you maximize return on your document production investment.

- **Highly trained managed print solutions experts** maximize your cost savings and continually fine-tune your output fleet for maximum productivity.

- **Fast maintenance and repairs.** Thanks to proactive monitoring tools, our experts can anticipate and resolve potential issues before they become problems.

- **The right supplies at the right time.** Our automated ordering systems ensure that you never run out of ink or toner.

Comprehensive support for all your output needs

Assess

Design

Implement

Manage

Assess. Expert consultants will review your current output services infrastructure and identify opportunities to improve performance, streamline operations and reduce costs.

Design. Working with your IT staff, our team will develop short- and long-range plans to improve print services management and enhance capabilities for your business.

Implement. Our team will deploy software, optimize hardware and establish best practices and training as needed, ensuring that your business maximizes productivity and cost–savings.

Manage. Using the same tools Xerox has developed for global enterprises, our team will automate print management, including troubleshooting and repair, supplies tracking and ordering, and usage monitoring.
